Mod 10 series

Una nuova concezione di divisione degli ambienti può essere rappresentata dalla trasparenza della vetrina vino.

Una realizzazione originale ottenuta inserendo le vetrine MD-C10 ed MD-C14 con cornice lineare in finitura laccata opaca.

A new paradigm in separating environments can be embodied by the transparency of the wine cellar.

A unique composition made by adding MD-C10 and MD-C14 with linear frame in matte finish.

Un nouveau concept de division des ambiances peut être réalisé grâce à la transparence de la vitrine à vins.

Une réalisation originale obtenue en insérant les vitrines MD-C10 et MD-C14 avec cadre linéaire dans la finition laquée mate.

Mod 10 series

Ottenere un'integrazione perfetta della vetrina potendo scegliere colori e finiture. Nell'immagine è rappresentato il modello MD-H14 con finitura HPL larice cenere.

Achieving perfect integration of the cabinet while choosing colors and finishes. The image pictures the MD-H14 model with Ash Larch-finish HPL frame.

Poursuivre une intégration parfaite de la vitrine pouvant choisir les couleurs et les finitions. L'image montre le modèle MDH14 avec finition en HPL mélèze cendré.

Mod 10 series

Qualcosa di veramente speciale.

Un grande quadro dove l'opera d'arte è il vino.

Questa realizzazione è composta da due modelli MD-H10 con cornice sagomata argento.

Something really special.

A big picture where wine the artwork.

This composition is made of two MD-H10 models with silver molded frame.

Une installation vraiment spéciale.

Un grand tableau où l'œuvre d'art est le vin.

Cette réalisation se compose de deux modèles MD-H10 avec un cadre mouluré argent.

Finiture Mod 10 series

CORNICE LINEARE

Linear frame • Cadre linéaire

FN-CL

Colori disponibili

L01 - L10 - L11 - L20 - L21 - L22 - L23 - L40 - L50 - V01 - V02 - RAL

PANNELLI LATERALI

Side panels • Les panneaux latéraux

FN-PL

L'inserimento dei pannelli laterali è da prevedere esclusivamente nell'installazione "da appoggio" oppure "centrale".

Side panels are to be added exclusively in the case of "wall-back" or "central" installations.

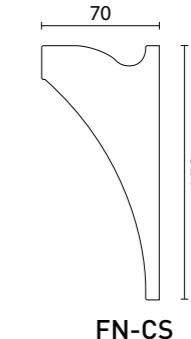

L'introduction des panneaux latéraux ne doit être envisagée qu'en cas de choix de l'installation "d'appui" ou "centrale".

COLORS

Mod 10 series

È un sistema componibile. Si possono unire tra loro due o più modelli di vetrine diverse.

La composizione deve essere completata con l'inserimento delle cornici o del rivestimento lineare.

La versione a profondità ridotta può essere inserita nei soggiorni Wine Living® sia con cornice che con installazione a filo.

Modular system – two or more different models of cabinet can be combined together.

The composition has to be fitted with frames or linear cladding.

The reduced depth version (H) may be included in Wine Living® furniture both with frame and flush installation.

C'est un système modulaire. Deux ou plusieurs modèles de vitrines différentes peuvent être assemblés.

La composition doit être complétée par les encadrements ou le revêtement linéaire.

La version à profondeur réduite peut être insérée dans les séjours Wine Living® soit avec le cadre soit avec l'installation à fleur de mur.

CARATTERISTICHE COSTRUTTIVE

Features • Caractéristiques de construction

Structure en aluminium

Hinged doors with double glazing – UV protection

Lock with key

Sides and top panels polyurethane foam

Aluminium interior

LED lighting

Inverter compressor

Static and ventilated refrigeration

Digital temperature controller

Automatic defrosting and automatic evaporation system

Anti-vibration system

Heated frame

Rechargeable active carbon filter

Struttura in alluminio

Porte a battente con vetrocamera - protezione UV

Serratura con chiave

Fianchi e top in pannelli di schiuma poliuretanica

Interni in alluminio

Illuminazione a LED

Compressore ad inverter

Refrigerazione statica e ventilata

Termoregolatore digitale

Sbrinamento automatico ed evaporazione automatica della condensa

Sistema di antivibrazione

Telaio riscaldato

Filtro a carboni attivi ricaricabile

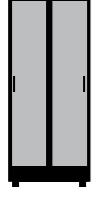

I modelli TE-H10 e TE-H14 devono essere fissati alla parete utilizzando le staffe in dotazione.

The TE-H10, TE-H14 models must be fixed to the wall with the provided brackets.

Les modèles TE-H10, TE-H14 sont à fixer contre le mur avec les supports fournis.

Installazione con cornice

Frame installation • Installation avec encadrement

Appoggio

Nell'installazione ad appoggio possono essere inseriti uno o più dei seguenti modelli (con il lato posteriore chiuso): PA-H10 • PA-M10 • PA-H14 • PA-M14.

Occorre inoltre completare la composizione aggiungendo una cornice e due pannelli laterali.

Standing

In a standing installation, one or more of the following modules can be included (closed back side): PA-H10 • PA-M10 • PA-H14 • PA-M14.

It is also necessary to complete the composition by adding one frame and two side panels

Central

In a central installation one or more of the following modules can be included (doors on both sides): PA-H10 • PA-M10 • PA-H14 • PA-M14.

It is also necessary to complete the composition by adding two frames (one for each side) and two side panels

D'appui

Dans l'installation contre le mur on peut prévoir un ou plusieurs des modèles suivants (avec le côté arrière fermé): PA-H10 • PA-M10 • PA-H14 • PA-M14.

Il est également nécessaire de compléter la composition en ajoutant un cadre et deux panneaux latéraux.

Central

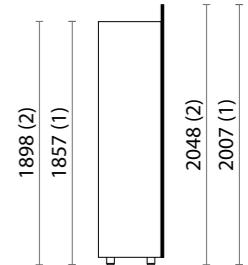

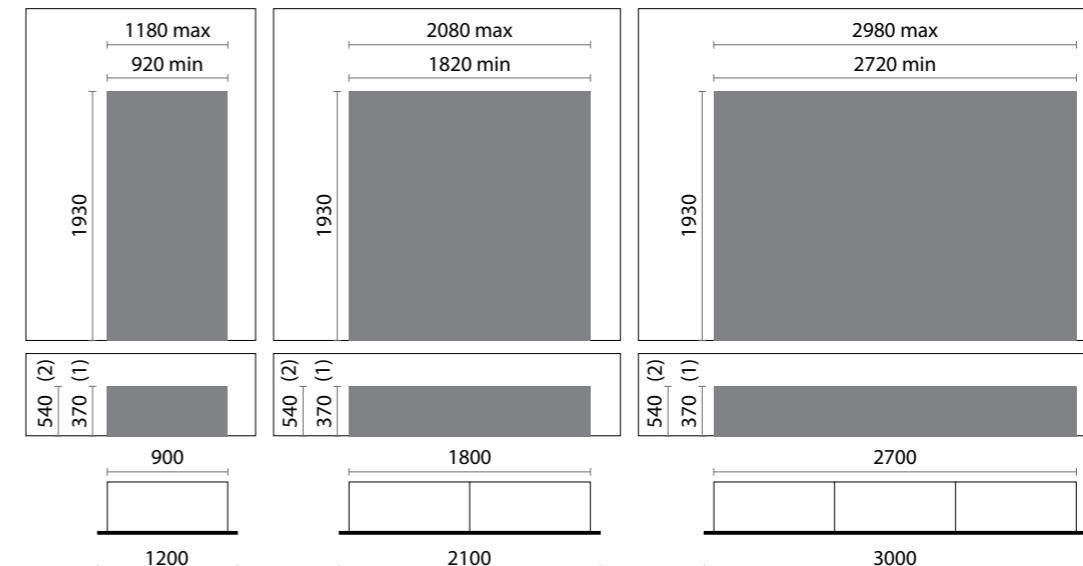

Dans l'installation centrale, un ou plusieurs des modèles suivants peuvent être insérés (portes sur les deux côtés): PA-C10 • PA-C14. Il est également nécessaire de compléter la composition en ajoutant deux cadres, un de chaque côté, et deux panneaux latéraux.

A encastrement

Un ou plusieurs des modèles suivants peuvent être insérés dans l'installation encastrée (avec le côté arrière fermé): PA-H10 • PA-M10 • PA-H14 • PA-M14. Il est également nécessaire de compléter la composition en ajoutant un cadre. Les panneaux latéraux ne sont pas nécessaires.

Di serie

Filtro a carboni attivi

Filtro a carboni attivi ricaricabile. È possibile estrarre il filtro dalla vetrina e sostituirlo i carboni in pochi minuti. Permette un naturale ricircolo di aria nelle vetrine vino. È consigliato per le vetrine utilizzate per conservazione che non vengono aperte spesso.

Termoregolatore digitale

Il termoregolatore può essere impostato a temperature diverse con o senza ventilazione diretta dall'utilizzatore. È possibile utilizzare la vetrina con unica temperatura oppure impostare la refrigerazione non ventilata con la quale si possono ottenere diverse temperature all'interno della stessa vetrina per mantenere a temperatura di servizio vino bianchi, rossi e spumanti.

Activated carbon filter

Rechargeable activated carbon filter. It is possible to remove the filter from the cabinet and replace the coals in few minutes. It allows a natural circulation of air in the wine showcase. This option is suggested for the showcases used for conservation that are not frequently opened.

Filtre à charbon actif

Filtre à charbon actif rechargeable. Il est possible d'enlever le filtre de la vitrine et de remplacer les charbons en quelques minutes. Il permet une circulation naturelle de l'air dans les vitrines à vins. Il est recommandé pour les vitrines utilisées pour la conservation qui ne sont pas fréquemment ouvertes.

Digital temperature controller

The temperature controller can be set on different temperatures, with or without ventilation, by the user. A single temperature can be picked or, by turning off the ventilation, different temperatures can be achieved inside the same cabinet to keep white, red or sparkling wines at service temperature.

Thermorégulateur numérique

Le thermorégulateur peut être réglé à différentes températures avec ou sans ventilation interne directement par l'utilisateur. Il est possible d'utiliser la vitrine avec une seule température ou de régler la réfrigération non ventilée avec laquelle vous pouvez obtenir des températures différentes à l'intérieur de la même vitrine pour avoir ensemble le vin blanc, rouge et mousseux à la température de service.

Optional

OPT-RGB

LED colorati RGB

Installazione impianto led colorati RGB in sostituzione dello standard a led bianchi. Telecomando per gestione colori, programmazione effetti ed intensità luminosa. Il colore bianco del led RGB è un bianco freddo (6000 - 6500°K). Nelle vetrine salumeria e gastronomia si consiglia di lasciare il led bianco naturale standard.

RGB color LED lighting

Installation of colored RGB LED instead of the standard with white LED. Remote control allows to choose various colors, sets lighting effects and the dimmer. The white color of the RGB is a cold white (6000 - 6500°K). It is suggested not to use RGB LED for gastronomy and delicatessen cabinets but use the standard white LED.

Éclairage LED couleur RGB

Installation de LED coloré RGB à la place des LED blancs standard. Télécommande pour la gestion des couleurs, effets de programmation et intensité lumineuse. La couleur blanche de la LED RGB est un blanc froid (6000 - 6500 °K). Dans les modules pour charcuterie et gastronomie on conseille d'employer les LED blanc naturel standard.

Porte colore nero

Verniciatura a polveri epossidiche colore Nero della parte esterna. PARETE (profilo porta, telaio di battuta delle porte, maniglie) TECA (profilo porta maniglie).

Door frame in black color

Black epoxy powder painting of the external part. PARETE (door profile, frame, handles) TECA (door profile, handle).

Portes en couleur noir

Laquage de l'extérieur avec vernis à poudre époxy noir. PARETE (profils de porte, châssis de porte, poignées) TECA (profils, portes et poignées).

OPT-PCN

Verniciatura Interno nero

Verniciatura di tutte le parti interne in alluminio con finitura a polveri colore nero opaco (fianchi, pannelli centrali, tondini, montanti, schiena, base e top). A seconda dei modelli, alcuni particolari tipo viti o reggi mensole vengono mantenuti in finitura inox.

Black interior coating

All internal aluminum parts are finished with matte black powder coating (sides, central panels, rods, strut, back, base and top). Depending on model, some details i.e. screw caps or shelf supports remain in stainless steel finish.

Intérieur laqué en noir

Toutes les pièces intérieures en aluminium sont laquées en noir mat (côtés, panneaux centraux, poteaux, tiges, dossier, base et dessus). Selon le modèle, certains détails comme vis ou équerres sont conservés en acier inoxydable.

OPT-VIN

Vetro porta brunito

Installazione di vetro brunito sulle porte (trasmissione luminosa 35%). Consente di ottenere un miglioramento del 10 % circa nella protezione ai raggi UV rispetto a quanto già garantito con il vetro standard.

Door with burnished glass

Installation of burnished glass on the doors (35% light transmission). It allows to obtain an improvement of about 10% in the protection against UV rays compared to the rate already guaranteed with standard glass.

Porte avec verre foncé

Installation des portes avec verre foncé (transmission de la lumière 35%). Il permet d'obtenir une amélioration de environ 10% de la protection contre les rayons UV par rapport à ce qui est déjà garanti avec les vitres standard.

OPT-VPB

OPTIONAL TECA - MOD *14 (P. mm 510 - 530)

Le vetrine *14 della serie Teca e Mod vengono fornite senza allestimenti. È possibile personalizzare l'allestimento interno scegliendo uno o più optional tra quelli di seguito elencati.

The units *14 of the Teca and Mod series are supplied without internal fittings. You can customize the interior by choosing one or more of the following options.

Les modules *14 de la série Teca et Mod sont fournis sans accessoires. Vous pouvez personnaliser l'intérieur en choisissant une ou plusieurs options parmi celles indiquées ci-dessous.

Optional Teca - Mod 14 (P. mm 510 - 530)

OPT-14T-BF
OPT-14MP-BF

Bottiglie frontali

Piano in plexiglas con staffette di fissaggio. Il sistema è regolabile in altezza con passo di 5 cm in funzione delle bottiglie inserite. Ogni piano può contenere 4 bottiglie.

Front neck bottles

Perspex shelf with mounting brackets. The system is adjustable in height, shelves can be fitted every 5 cm. depending on how many and what kind of bottles you want to insert. Each shelf can hold 4 bottles.

OPT-14-B0

Bottiglie orizzontali

Sistema composto da n. 8 tondini in alluminio, costruiti in 2 pezzi. Sistema regolabile in altezza ogni 10 cm. Con ogni kit è possibile esporre 8 bottiglie, 4 per ciascun vano.

Horizontal bottles

System made of n. 8 aluminum rods, realized in 2 pieces. System adjustable in height every 10 cm. With each kit you can expose bottles 8, 4 for each compartment.

OPT-14-T-BI
OPT-14MP-BI

Bottiglie inclinate

Struttura realizzata con laterali in plexiglas e tondini in alluminio. Questa struttura può essere posizionata a diverse altezze con interasse minimo di 20 cm. Può contenere fino 7 bottiglie classiche da 0.75 cl oppure 5 bottiglie Magnum.

Inclined bottles

Structure composed of Perspex sides and aluminum rods. This structure can be positioned at different heights with a minimum of 20 cm spacing. It can hold 7 standard 0.75 lt. bottles or 5 Magnum.

OPT-14T-PR
OPT-14MP-PR

Piano regolabile

Piano regolabile in vetro temprato con reggi mensole. Il piano è regolabile con passo 5 cm. È molto utile per il posizionamento di bottiglie in verticale, bottiglie e decanter.

Adjustable shelf

Tempered glass adjustable shelf with supports. The shelf can be adjusted in steps of 5 cm. It is very useful for positioning vertically bottles, glasses and decanters.

Optional Teca - Mod 14 (P. mm 350 - 362)

OPT-14H-BO

Bottiglie orizzontali

Sistema composto da n. 4 tondini in alluminio, costruiti in 2 pezzi. Sistema regolabile in altezza ogni 10 cm. Con ogni kit è possibile esporre 4 bottiglie, 2 per ciascun vano.

Horizontal bottles

System made of n. 4 aluminum rods, realized in 2 pieces. System adjustable in height every 10 cm. With each kit you can expose bottles 4, 2 for each compartment.

OPT-14TH-BI
OPT-14MPH-BI

Bottiglie inclinate

Piano in plexiglass termoformato. Questo accessorio può essere posizionato a diverse altezze e può contenere 4 bottiglie classiche da 0.75 cl.

Tilted bottles

Thermoformed plexiglass ledge. This component can be positioned at different heights and can contain 4 classic 0.75 l bottles.

OPT-14TH-PR
OPT-14MPH-PR

Piano regolabile

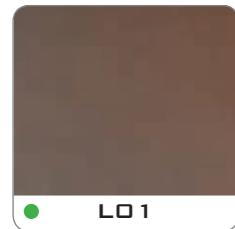

Piano regolabile in vetro temprato con reggi mensole. Il piano è regolabile con passo 5 cm. È molto utile per il posizionamento di bottiglie in verticale e bicchieri.

Adjustable shelf

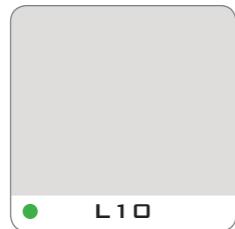

Tempered glass adjustable shelf with supports. The shelf can be adjusted in steps of 5 cm. It is very useful for positioning vertically bottles and glasses.

	Gas refrigerante	Refrigerant gas	Gaz réfrigérant
	Luce	Light	Lumière
	Led bianco naturale	white natural daylight LED	LED blanc day-light naturel
	Led blu	Blue LED	LED bleue
	Led colorati con telecomando	Coloured LEDs with remote control	LED couleurs à télécommande
	Lato posteriore vetrina	Showcase back side	Face postérieure vitrine
	Ante in vetro	Glass doors	Porte en verre
	Pannello cieco	Blank panel	Panneau borgne
	Bottiglie	Bottles	Bouteilles
	Numero bottiglie da 0,75 Lt	Number of bottles 0,75 lt.	Quantité bouteilles 0,75 lt.
	Altezza e diametro massimo bottiglie	Maximum height and diameter of the bottles	Hauteur et diamètre maximum des bouteilles
-	Assente / dato non disponibile	Absent / data not available	Absent / information non disponible
	Dimensioni nette	Net dimensions	Dimensions nettes
	Dimensioni con imballo	Dimensions including packaging	Dimensions avec emballage
	Dimensioni con imballo su pedana	Dimensions including packing on pallet	Dimensions avec emballage sur palette
	Peso netto	Net weight	Poids net
	Peso con imballo	Weight with packaging	Poids avec emballage
	Peso con imballo su pedana	Weight with packing on pallet	Poids avec emballage sur palette
	Volume con imballo	Volume with packaging	Volume avec emballage
	Volume con imballo su pedana	Volume with packaging on pallet	Volume avec emballage sur palette
	Numero colli	Number of packagings	Quantité colis
	Dato in fase di rilevamento	Data in collection phase	Donné en cours de détection
